

## Covid procedure for subbing and performing in IHSSA LG 2022

Here is the procedure for dealing with Covid and Large Group activities. Please call the State Office if you need to have this explained in greater detail.

If a group has a member(s) test positive or member(s) have to quarantine due to close contact the group can still perform and receive a rating without those members several ways.

You will be able to sub a new person in and perform.

You will be able to have a person stand and read the role with script or even act with script and still receive a rating for those who are dealing with Covid and cannot perform in person. This is for any event including group mime.

There is no limits on number of events for a person who is subbing in for a Covid situation. In another words a person could be in 3 mimes to replace two other performers in 2 mimes so the rest of the group could perform.

You must contact the state office via phone and explain the Covid situation at your school and in turn the state office will contact the contest manager. We will explain to the contest judge that they are only to judge those students who are still performing and not the students are subbing in or reading a script.

You do not have to submit a sub form for a Covid subbing situation.

If a solo mime performer is due to sit out with Covid they will NOT perform and will not be able to move through the contest situation. This is very similar to how they are handling a wrestler at a sectional.

By doing the above your groups can still perform and receive a rating without those students who are out for Covid.
